WHO WE ARE

- USAnchor is a State-of-the-Art Sheet Metal Fabricator, who manufactures for all industries on demand.
- USAnchor provides on demand manufacturing with turn around times 50% faster than the competition.
- Our material characteristics, proprietary designs and manufacturing processes make our products 55% stronger than our competitors.
- Finite Element Analysis and Proof load testing: Prove our products and 55% stronger than typical fall protection equipment.
- Finite Element Analysis and Proof load testing: Performed on 100% of our products versus 0-10% tested by other manufacturers.

WHAT WE DO

SHEET METAL MANUFACTURING

- Suspended maintenance and Fall protection systems and components
- Tube Laser Cutting
- Laser Flat Cutting
- Robotic Laser Welding
- Press Brake Forming
- Laser Marking
- Welding, MIG and TIG
- Stud Welding
- PEM Fittings

OTHER SERVICES OFFERED

- Design and Engineering of custom components
- Research and Development for various industries
- Prototyping
- Finite Element Analysis and Engineering
